**RAILROAD COMPANY.**

**\$600,000 Second Mortgage Bonds**  
**For Sale.**

These Bonds are part of a series of One Million of Dollars secured by Mortgage on 200 miles of Railroad, of which Messrs. Denning Duer and James Robb are Trustees. They have 20 years to run with 7 per cent. interest coupons, payable semi-annually in New York. The liens on the Railroad having priority, amount to \$2,899,530, making the total incumbrance \$3,899,530, and its estimated value exceeds 10 millions of dollars. Since the conclusion of the war extensive improvements have been made, and its condition will compare favorably with that of leading lines of Western Railway. The profits of the Company from 1858 to 1862 yielded over 15 per cent. to the shareholders, those of the fiscal year ending 30th June, 1867, were \$547,187 76, being more than double of the liability for annual interest, including the issue of the 2d Mortgage Bonds, and earned during a most unfavorable season owing to the failure of Southern crops.

We are prepared to receive bids for the above Bonds in whole or in part, and recommend them to the public as unquestionable security.

**Subject to Check at Sight.**

CERTIFICATES payable on demand are issued at the same rate.  
SPECIAL DEPOSITS for one year or more may be made at five per cent.

THE NATIONAL TRUST COMPANY discharges all the various duties of similar institutions. It acts as Trustee for Corporations and Individuals, and Mortgagee for Railroads, and as Financial Agent of State and City Governments, and foreign and domestic corporations, banks and bankers. It will act as administrator or executor of estates, and as guardian for minors, and as receiver in litigated cases. The Company is also constituted by its charter a legal depository for money paid into Court.

**SECURITY OF THE COMPANY.**

The Capital stock of ONE MILLION DOLLARS is divided among over five hundred shareholders comprising many gentlemen of large wealth and financial experience, who are also personally liable to depositors for all obligations of the Company to double the amount of their capital stock.

By its charter, no loan can be made, directly or indirectly, to any trustee, officer or employee of the Company.

The Trustees are compelled to exhibit annually a full statement of their affairs to the Supreme Court, and it is made the duty of the Court to see that they are properly conducted.

The charter restricts the investment of its Capital to United States Government Stocks, or New York State Stocks, or Bonds of Incorporated Cities of this State; or on Loans on Bond and Mortgage on unincumbered Real Estate in this State, worth double the amount loaned.

The Company will make loans from its Deposits and Trust Funds on Government Securities, State Stocks and City Stocks of this State; but it is not permitted to DISCOUNT or deal in COMMERCIAL or BUSINESS Paper.

The above provisions constitute this Company a very secure Depository for Money and for trusts committed to its charge.

**ADVANTAGES TO DEPOSITORS.**

As the NATIONAL TRUST COMPANY receives deposits in large or small amounts, and permits them to be drawn as a whole or in part by CHECK AT SIGHT and WITHOUT NOTICE, allowing interest on all daily balances, parties can keep accounts in this institution, with special advantages of security, convenience and profit.

At a meeting of the Board of Directors, held Monday, December 30, 1867, the resignation of GEO. W. SAVAGE, Esq., as President, was accepted, and the following resolution was unanimously adopted:

Resolved, That the thanks of this Board are due, and are hereby tendered to Geo. W. Savage, Esq., (who resigns to assume the Presidency of the International Insurance Company,) for his devotion to the interests of the stockholders, and the able manner in which he has performed his duties as President of this Company and that this Board congratulate Mr. Savage upon the present prosperous condition of the Company, which is largely due to his efficient administration.

Subsequently NICHOLAS C. MILLER was unanimously elected President, and MOSES M. BRADLEY appointed Secretary.

### THE JANUARY DEBT STATEMENT.

The popular interest in the monthly reports of the national debt seems to know no abatement. Every successive statement is scanned as closely as its predecessor. We regret to notice once more an increase in the aggregate of our indebtedness, the gross sum of which is 2,642 millions, against 2,639 millions in December, 2,625 millions in November, 2,630 millions in October, and 2,641 millions in September last. For the present it appears that we must give up the hope of diminishing, to any great extent, the vast aggregate which represents our national obligations except retrenchment be enforced with a much more rigorous firm hand in the Departments at Washington.

The customs duties fell off in December, the internal revenue receipts were light, while the demands for the War Department were excessive, and we had also to meet other requisitions on the Treasury at the close of the year, besides disbursing about \$8,500,000 for interest on Seven-Thirties and Compound notes. It is with some anxiety that the public contemplate the existing scale of extravagant outlay for war purposes now that we are so rapidly nearing the fourth year of peace. To increase our debt because of disbursements for war purposes, as we seem to be doing, is a disappointment to our peaceful citizens, and to carry a

heavy galling burden of taxes for army purposes would be intolerable and contrary to the genius and spirit of republican institutions.

As we announced some time ago would probably be the policy, Mr. McCulloch still reduces his idle balance of currency in the Treasury. The gold balance has increased in anticipation of the payments of coin, which matured with the opening year to the extent of some thirty millions of dollars.

Pending the action of Congress in regard to contraction, the greenback aggregate shows no material change; and even in the absence of any final action, it is very probable that the resources of the Treasury would not have allowed any withdrawal of greenbacks for cancellation, except bonds or gold were to be sold for cash, which would be a very unpopular procedure just now.

There are few other points of special interest in the debt statement. Some surprise has been expressed at the large aggregate to which the funding operations were swelled in December, notwithstanding the change in the terms of conversion which was made on the first day of the month. After that date, it will be remembered, the Seven-Thirties were converted into bonds not bearing the January coupon, the gold amount of which had previously been sold at par to the purchasers of the bond. The change in the terms of conversion being thus equivalent to an advance in the price offered for the Seven-Thirties, or to a reduction in the price asked for the Five-Twenties the conversions were expected to have been arrested, and we were prepared to see the amount reduced to 20 millions. As such a check to the process of conversion would be mischievous it is gratifying to find that the report shows so favorably. The consolidated Five-Twenties issued during the month amounted to no less than \$49,392,200, while the Seven-Thirties retired were \$47,318,650. The excess of two millions of bonds we suppose was given in exchange for compounds, of which sixteen millions were redeemed. These compounds might, under the law, have been redeemed in 3 per cent. certificates, but only ten millions have in fact been so redeemed, while the remaining 6 millions appear to have been either paid off in cash or exchanged for Seven-Thirties.

It is to be regretted that Mr. McCulloch has not told us what proportion of the conversions have been made on the new terms fixed on the 1st December, which were, as we have intimated, about  $\frac{3}{4}$  per cent. less advantageous for the public. We have inquired about this matter, but cannot learn the exact figures. Reports have been in circulation that a few prominent firms were allowed an extension of time for their conversions to the manifest injury of the public, who were denied this privilege, worth, as it was during the early part of the month, from  $\frac{3}{4}$  per cent. These injurious

rumors are emphatically denied. They probably originated in the circumstance that partly from want of adequate clerical force in the Department, and partly because all bonds *in transitu* on the 1st December were accepted at the old terms of exchange, a large amount of the conversions which properly belonged to November did not get into the books till December, and appear therefore in the statement before us. Making due allowance for these circumstances, we have arrived at the conclusion that of the 49 millions of conversions in December, about 30 to 35 millions were made on the old basis, and from 15 to 19 millions on the new. We may also add that so far as appears, there was no favoritism or partiality shown in the negotiations, and that the conversions now and for a week or two past have been going on very promisingly.

Another point on which some questioning has arisen is the apparent increase in the Sixes of 1881. For such an increase Mr. McCulloch has no lawful authority. And it is in part because the supply on the market cannot be increased, that these absolute long bonds of 1881 are such a favorite security with certain investors, and possess an element of stability denied to such securities as are always liable at some sudden moment to have a secret issue of several millions put without notice upon the market. The bonds known as the old 1865's last year suffered thus, as such an issue was made after the loan was supposed to be closed, and the price fell accordingly as soon as the fact became generally known. Mr. McCulloch's experience, it is believed, would prevent any such mischievous manipulation of the securities which are held and dealt in by the public with the understanding that the loans to which they belong are definitely closed up and will be swelled by no new issues. This conviction and the fact that there is no legal authority for any further issue of Sixes of 1881 gave some importance to the question how these securities in December could be permitted to show an increase of \$945,050 over their aggregate a month before.

We are semi-officially informed that the discrepancy arose from a clerical error. The Sixes of 1881 amount altogether to \$283,676,600, and are arranged under the following three heads: first, those issued under the act of 17 July, 1861, \$189,316,550; secondly, those under act of 8 February, 1861, \$18,415,000; and, thirdly, those under act of March 2, 1861, \$945,050. This third series of 1881 bonds are commonly known as the Oregon war loan, and were by an error on the part of the clerk who made out the debt statement for November included with the five per cent. bonds and separated from the six per cents to which they really belong, and are now restored. This blunder of the Treasury, and the irritating discussion to which it has given rise, should at least have the effect of stopping all future secret negotiations of bonds—either the Ten Forties or the Five-Twenties—the not unfrequent occurrence of which during the last few months has been the subject of severe frequent comment.

#### RAILROAD MANAGEMENT.

How to manage a railroad seems to be practically the most difficult problem of this material age. In the United States we have 35,000 miles of road, on which 1,400 millions of capital has been expended, and in the control of which the best business talent of the country is engaged; so that neither experience nor ability are lacking in the superintendence of this great interest. Yet the fact remains that, in the common judgment of the public, our railroads are ill managed. Perhaps we may flatter ourselves that, in this matter, we are no worse than other countries. If the present condition of British roads, and the outcry of English stockholders against the severe depreciation of their invest-

ments may be taken as evidence, we stand as well in this respect as the country whose railroad capital amounts to nearly one-third of that of the whole world. This, however, is no palliation of the discreditable fact that the affairs of our roads are so conducted as to seriously impair confidence in such investments.

It is easier, perhaps, to expose the causes of this fault than to propound a practicable remedy. They do not consist, however, in the perplexity of the business details, nor in anything whatever intrinsic in the affairs of the corporations; but in the fact that large discretionary powers have to be entrusted to the direction and the officers; which powers they are apt to employ with a primary regard to their own special interests. The directors have the opportunity to secretly start schemes or to make changes in the company's affairs materially affecting the value of the stock; and, in too many cases, the management is made to turn upon this power. To produce fluctuations in the value of shares is to create opportunities for speculation, opportunities in which the directors have the first chances. It does not follow that because a director has this power he will abuse his position by using it. There are doubtless many high-minded directors who accept their position as a public trust, and discharge its duties with an honest regard for the welfare of the company. But the fact of this position conferring such powers naturally attracts into the direction of the roads a class of men who desire the office only for the object of promoting speculations. A shrewd director, with good Wall street connections, may in one year make a handsome fortune out of manipulations of the shares of his company. This being the fact, there are always found knots of speculative capitalists ready to buy up sufficient stock to secure their election as directors. They elect themselves to that position, not from any special fitness for the management, not from any real aim to benefit the road, not because they desire or are peculiarly able to improve its condition, not because they have any large vested interest in the company, which they desire to protect, for, usually, they sell out their stock soon after the election, but simply because they desire a position favorable for speculation. This position being secured, the way to improve it is by producing the widest possible fluctuations in the stock. For realising that result there is no lack of devices. Sometimes resort is had to garbled reports, sometimes to the suppression of facts relative to the condition of the road, sometimes by passing a dividend when the company is able to pay one, at other times by declaring a dividend when it has not been earned. These, however, are but the petty expedients of the stock-jobbing director. His favorite devices are the purchase of real estate in behalf of the company, the purchase of contiguous roads, and the extension of the company's line. These operations not only affect the value of the stock, but also afford a chance for operating in real estate on the route of the new track, or for speculating in the securities of the road to be absorbed.

Of course, while this element enters into the management so largely as it does, railroad investments must be shunned by the public at large, and stocks gravitate toward Wall street, to be bandied about as speculative foot balls, the directors being the head players. Investors require a kind of security which does not fluctuate 10 to 20 per cent. within the year, and one the dividends on which are not dependent upon caprice; but such they cannot have, in the majority of railroad shares, so long as this system of management is permitted.

The late transactions of the directors of a Western company are an illustration of the evil of such large powers being reposed in and exercised by the direction. Without an-

icipating the decision of the courts as to the right to issue 49,000 shares of new stock without the consent of the stockholders, it may be safely asserted that a proper regard for their interest would require that the negotiation be made openly, and that the stockholders first should have the privilege of taking the new stock. The directors must have been aware that this new issue thrown upon the market would depreciate the value of stock outstanding; and therefore to clandestinely sell the shares was virtually an unfair imposition upon the purchasers and also upon the old stockholders—unfair to the purchasers because a fact was concealed which the directors alone could communicate and of which the purchasers had a right to be informed; and to the stockholders because they had the first right to the new stock, and to the advantages which the knowledge of the coming issue might afford. So long as directors feel themselves free to undertake operations of this character, the public can have no confidence in the stability of such investments. Some legal restraint should, therefore, we think, be imposed upon the power of directors to make purchases of real estate, or to undertake extensions of their line. These operations are constantly unsettling the value of railroad stocks and preventing them from becoming an investment upon which the public can rely for a steady income. In England, the evil has been carried to such an extent that very many of the roads are failing to pay dividends and the stocks have greatly depreciated; so that the many families which have depended upon these investments for income are suffering severely in losing their dividends and in being unable to realize on their stock. A similar mania for extension prevails here; which must result in great injury to the roads, unless placed under some effective check.

Another evil of our present system consists in the abuses of power and privilege by the officers of the roads. These parties have the making of contracts for supplies, the control of freights, the purchase of materials and equipment, and the determining of arrangements with freight agents. As the exercise of these functions implies a wide discretion as to individuals and firms with whom the business is transacted, there is the strongest possible liability to contracts being awarded to those who offer the largest inducements in the way of largesse; and indeed it is notorious that the finances of the roads frequently suffer seriously from this jobbing system of management. The most proper remedy in this case would be in a strict supervision of officers by the direction. But unfortunately the officers are too frequently friendly appointees of the directors, and the latter are too prone themselves to use the road for their own purposes to be very jealous over similar sins by their subordinates.

But the most effective remedy for all abuses lies rather with the stockholders than the legislators. Their votes might not be able to accomplish much; but their rigid scrutiny into the doings of the direction and the affairs of the company, their protest against mismanagement, and their appeal to the courts where the right of investigation is denied them, would go far toward holding mismanagement in check.

#### COMMERCE OF NEW YORK FOR 1867.

We are now able to publish a full review of the commerce of New York for the past year, having received from the Custom House the returns for the last quarter and revised our own figures of receipts, exports, &c.

##### RECEIPTS, IMPORTS AND EXPORTS OF LEADING ARTICLES.

The receipts of the leading articles of domestic produce show no marked variation except in breadstuffs, cheese and a few other articles. Of wheat the total this year reaches 9,652,537 bushels,

against 5,911,511 bushels last year, while in flour the figures are about the same for the two years; but in corn there is a very decided decrease this year, the total being only 14,914,234 bushels against 22,696,186 bushels in 1866—had it not been for the early and unexpected closing of the canals our receipts of breadstuffs and some other articles would have been considerably larger, 1,500,000 bushels of wheat alone having been locked up in the ice. Below we give our table of receipts for the two years:

The exports during 1867 exhibits changes similar to those noted in the receipts. Wheat, after an export of only 522,607 bushels in 1866, increased in 1867 to 4,468,774 bushels, while of corn we exported in 1867 8,147,313 bushels, against 11,147,781 bushels in 1866. Below we give our table showing the total exports for the two years:

We now bring forward our figures showing the total foreign commerce at this port for a series of years. It will be seen that the exhibit for the past twelve months is more satisfactory than last year, although the exports are less than anticipated owing in great measure to the lower prices paid for cotton during the last half of the year. In the imports, however, there is a falling off of about 54 millions.

##### EXPORTS.

The exports from New York for 1867, exclusive of specie, reach a total of \$186,790,025 against \$192,329,554 last year. As we stated last year, however, it should be remembered, in receiving these figures and in using them as a basis upon which to estimate the trade of the country, that the exports from the South have been large since the close of the war while the imports have been small, so also during the past year California has shipped an unusual amount of wheat and flour. For these reasons the figures show—

the commerce of New York do not indicate the same relation to the trade of the country as formerly; that is to say, the exports do not now represent nearly as large a proportion of the total exports from the United States during the war, while the imports represent a larger proportion of the total imports than even during the years previous to the war. The shipments direct to foreign countries of cotton alone from the South during 1867 reach about one million of bales, while the total amount of naval stores, tobacco, etc., sent direct from that section is also large, and yet foreign imports for the South have been to a very great extent received through New York. We think, therefore, that when the figures for the whole country are made up, they will not show an unfavorable balance. The following statement exhibits the quarterly exports, exclusive of specie, for the past six years from this port. As the shipments of merchandise are reckoned at their market price in currency, we have given in the same connection the range of gold.

The shipments of specie during 1867 will be seen to be about 11 millions less than last year.

## TOTAL IMPORTS.

Last year the imports reached the large total of \$306,613,184. Compared with those figures there is this year a falling off of about 54 millions, but compared with previous years the total still continues large. From what we have said above, however, it will be understood why these imports should show an excess over former years, inasmuch as this port has been called upon to supply not only the usual portions of the country which draw their imports from this point, but to a very great extent the whole South. In the following we classify the total imports, giving separately the dry goods, general merchandise and specie:

## FOREIGN IMPORTS AT NEW YORK.

	1852.	1853.	1854.	1855.	1856.	1857.

We now give for comparison the previous years since 1851, classifying them into dutiable, free, and specie. Under the head of dutiable is included both the value entered for consumption and that entered for warehousing. The free goods run very light, as nearly all the imports now are dutiable.

The total custom receipts for the year amount to \$114,085,990 34, as given in above table. This is a decrease over last year, but the total is larger than any previous year.

## DRY GOODS IMPORTS FOR 1867.

It will be seen in the foregoing table classifying the imports, that the total imports of dry goods the past year amounted to \$86,263,643, against \$126,222,855 for the previous year, a decrease of

about 40 millions. We now give a detailed statement showing the description of these goods, and also the relative totals for the preceding five years :

In the foregoing table we have indicated the extent of the imports each month since January, 1863. It will be noticed that the large increase in the foreign movement began in August, 1865, and was kept up with considerable regularity until March, 1867. Since that time, with the exception of August last, the total each month has been small. As our readers may be interested in seeing the totals for the anterior period, we annex the following, showing the total imports of dry goods at this port each year since 1849 :

## TREASURY MOVEMENTS AT NEW YORK FOR THE YEARS 1866 AND 1867.

In consequence of the method of reporting the treasury balances at the close of each month, and the impossibility of distinguishing the amount of coin or currency in the reported balances, we have been obliged to vary our usual formula from that of preceding years, and adopt the following, which omits from the calculation the amount of coin in the hands of the Assistant Treasurer at this port at the close of each month :

FRIDAY, JAN. 10, 1868, P. M.

**THE MONEY MARKET.**—The last bank statement exhibited some unusually wide fluctuations in the items. In the loans, there was an increase of \$4,800,000, due probably, to some extent, to the banks having loaned the gold received in payment of their coupons on bonds deposited at Washington. The deposits showed the extraordinary increase of \$8,300,000; while, in the legal tenders, there was a gain of \$1,400,000.

The statement was favorable to an expansion of operations; and hence the money market has been quite easy through the week at 6 per cent. on call loans.

The banks probably increased their loanable resources during the week, as there has been a steady flow of currency from the West, while the amount going South is quite moderate. The Assistant Treasurer has received, during the week, about \$1,000,000 from the National Depositories of the interior, in the form of drafts upon their correspondent banks in this city. But it is questionable whether this item and the remittances South together equal the receipts from the West. The funds in the Treasury are unusually very low. According to the Debt Statement, the amount of currency in the Treasury on Jan. 1, was only \$25,000,000, of which about \$10,000,000 only is held in the Sub-Treasury. About \$13,000,000 of taxes from the banks and private bankers becomes payable this month; but as these receipts may come to hand slowly it is not improbable that the Treasury may find it necessary to resort to some means for providing itself with currency. It is reported that, this afternoon, the Assistant Treasurer sold \$4,000,000 of Five-Twenties of 1867; but for the truth of the statement we are unable to vouch. We have, however, good grounds for stating that, in the event of Sixty-Sevens reaching a certain price, as compared with Seven-Thirties, the Government has been prepared to sell.

The discount market is easier. There is but a moderate amount of paper offering, and prime names pass at 7 per cent at the banks, and 7@7½ per cent. on the open market.

The following are the quotations for loans of various classes:

**UNITED STATES SECURITIES.**—Government Securities have been very firm throughout the week, especially toward the close. The comparative ease in money is creating a partial demand for the employment of balances. Some of the financial institutions who sold their governments in anticipation of the late fall in prices are now buyers, in expectation of an advance. The current very active demand, however, comes chiefly from parties desiring to invest interest received at the beginning of the month. The amount of dividends and interest payable about Jan. 1, has been unusually large this year, and the demand for this purpose is consequently greater than has heretofore been experienced at this season. Bonds have advanced from these causes ½@1 per cent. during the week. For Sixes of 1881, Sixty-Twos and Ten-Forties, there has been a partial demand for export; which has also had a tendency to promote the large improvement in prices.

The amount of Sixes of 1847 redeemed during the week is less than might have been expected, the whole redemption being but little over two millions. A large amount of the bonds are held in Europe (probably \$6,000,000); and these holders are, for some reason, tardy in forwarding them. The Secretary of the Treasury, being quite willing that these parties should continue to hold the bonds, the interest being allowed to run at the usual rate, has instructed the Assistant-Treasurer to issue the following notice, the chief purpose of which, we believe, is to convey this intimation:

UNITED STATES TREASURY,  
NEW YORK, Jan. 6, 1868.

Holders of U. S. Bonds of the Loan of 1847, who do not present them for payment prior to the first of February, 1868, will be considered as having waived the right of present payment thereof, and such bonds will be paid at the option of the Government. Interest on this loan ceased on the 31st ult., except on the bonds which shall not be presented for payment as above required, on which the interest will be paid as heretofore, and the principal at the option of the Government.

By order of the Secretary of the Treasury.

H. H. VAN DYCK, Asst.-Treas.

Any of the bonds *in transitu* on Feb. 1, for redemption, will be redeemed on arrival after that date.

**RAILROAD AND MISCELLANEOUS STOCKS.**—The Stock Market has been very active and buoyant. Preparations for an advance on some of the leading shares which have been in process for several months, but have been interrupted by the late panicky state of the money market, are now in process of culmination. The stocks of the roads in the Vanderbilt interest have been especially buoyant. N. Y. Central has advanced 7 per cent.; Erie 4½; Hudson River 9, and Michigan Southern 1½. Operators have shown unusual confidence in the market; and if the cliques have not shipped part of their load upon the street, it has not been from any indisposition on the part of buyers to take the stocks.

The Western stocks have sympathized with the firmness in the shorts of the State lines. Cleveland and Pittsburg has been in very strong demand and has advanced 4½. Cleveland Toledo, though not specially active, is 4½ higher. Fort Wayne has advanced 3½, and Ohio and Mississippi 1½.

Rock Island shares have been unsettled, in consequence of legal proceedings taken against the Directors for the issue of 49,000 shares, for completing the road from Des Moines to Omaha. An injunction has been served upon the Directors restraining them from issuing any new stock, and from using the funds received upon the late sales of stock. The company has removed its transfer books to Chicago in order to evade the jurisdiction of the local courts; and upon the court attaching the funds of the company in the bank of New York only \$175,000 was found to its credit, from which it is probable that the money received upon sales of stock has also been sent out of the city. The court has transferred the hearing of the case to referees, and the next hearing is to take place on the 18th inst. As matters now stand, a protracted lawsuit appears likely to grow out of the case. The stock boards have determined that the new stock is a "good delivery." The price of the shares has advanced 2½ upon our last quotation.

The following were the closing quotations at the regular board, compared with those of the six preceding weeks:

**THE GOLD MARKET.**—The course of the premium has been irregular. The weakness of last week was followed by a strong upward reaction, under which the price rose to 137½, an advance of ¾ upon our last quotation. This was followed by a decline to 135½, from which the price has advanced, to-day, to 137½, closing at 137½@. The market keeps constantly largely oversold; and it is the demand from the "rats," who are easily frightened into covering, which has been the chief strength of the premium. At the same time, the continuance of the shipments at the rate of about 2½ millions per week, and the apparent certainty of the stoppage of contraction tend to sustain the market. The whole amount of coin paid by the Sub-Treasury, on coupons and bonds of 1847 since Jan. 1st amounts to between 10 and 11 millions. Gold has loaned, to-day, from 6 per cent. for carrying to "flat."

The fluctuations in the gold market, and the business at the Gold Board during the week closing with Friday, are shown in the following table:

The Register of the Gold Board, J. C. Mesereau, Esq., has compiled a very complete manual, in which the daily fluctuations of the prices of gold from 1862 to the close of 1867 are stated.

The movement of coin and bullion at this port for the week ending on Saturday, Jan. 4, was as shown in the following formula:

Treasure receipts from California	\$1,108,087
Imports of coin and bullion from foreign ports	149,650

**FOREIGN EXCHANGE.**—For Wednesday's mail the rates of exchange were the same as last reported. To-day, however, owing to a moderate supply of bills against shipments of bonds, sterling has declined about ½ per cent., prime bankers 60 days' sterling being 109½@110.

## The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, JANUARY 10.

The state of trade slowly improves. Business would be more active, but for the disposition which is prevalent to advance prices on the appearance of any considerable demand. This is natural, perhaps, in view of the fact that the ruling prices of so many goods are below cost, but it will delay the resumption of active operations.

The following is a statement of the stocks of leading articles of merchandise at dates given:

	1867.	1868.
	Jan. 1.	Dec. 1.
Beef, tierces and barrels.....	22,046	51,001
Pork, barrels.....	57,167	44,410
Tobacco, foreign, bales.....	13,619	6,371
Tobacco, domestic, hogsheads.....	19,219	26,056
Coffee, Rio, bags.....	59,940	106,032
Coffee, other, bags.....	37,314	23,524
Coffee, Java, mats.....	2,000	3,021
Sugar, hogsheads.....	34,243	7,330
Sugar, boxes.....	43,590	43,577
Sugar, bags.....	118,973	17,903
Molasses, hogsheads.....	11,438	9,026
Molasses, barrels.....	493	380
Rides, No.....	30,700	109,900
Petroleum, crude, barrels.....	9,600	20,227
Petroleum, refined, barrels.....	31,900	46,705
Cotton, bales.....	150,000	41,230
Rosin, barrels.....	98,400	80,400
Crude turpentine, barrels.....	1,556	998
Spirits turpentine, barrels.....	8,100	1,722
Tar, barrels.....	6,212	903
Rice, E. I., bags.....	18,602	2,652

Saltpetre, bags.....	38,600	21,000
Jute, bales.....	11,759	6,400
Manilla Hemp, bales.....	13,700	15,400
Tin, slabs.....	38,100	9,800
Spelter, tons.....	1,300	750
Iron, tons.....	1,500	8,000
Lead, tons.....	2,300	3,100

Cotton declined until to-day, when the demand became active and prices buoyant. Breadstuffs are uniformly lower. Groceries have shown more activity. Tobacco has been fairly active and firm.

Provisions show more firmness, but the business in hog products has been most liberal in cutmeats and lard, the latter for export, closing at 13½c. There seems to be very little demand for pork, and the closing quotation is nominal; while in bacon buyers and sellers are apart, Cumberland being quoted at the close at 10½c. a 10½c., the advance in gold being offset by higher freights. The receipts of live hogs at this market have been largely reduced, and of dressed hogs the supply has been moderate, circumstances which tend to the advance of Western cured meats. The packing at the principal points in the West to date, this season, compares with the corresponding time last season as follows:

	1867-S.	1866-7.
Cincinnati.....	297,000	284,000
Chicago.....	600,000	230,000
St. Louis.....	220,000	90,000
Louisville.....	1,100	148,000
Milwaukee.....	110,000	80,000
Total.....	1,868,000	832,000
Excess to date.....		536,000

The total packing, last season, at the above five points, was 1,615,583 head, which is only 247,500 more than has already been packed this season; while at interior points the packing to the present time is generally in excess of the total packing last season; but there is a great falling off in weight and lard.

Beef has been active for export.

Hides have been more active, and foreign dry ¼c. per lb. gold, advance. Leather quiet. Petroleum firmer for refined—a cargo of 2,500 bbls. standard refined, in bond, sold to-day at 24½c. We note some further advance in Linseed Oil, and the sale of 1,600 bbls. crude Sperm at \$2.

East India Goods are more steady, but quiet, except Calcutta Linseed, which brought \$2 2½, gold, per bushel, for February delivery.

Metals are rather firmer, but the only business of moment is in Detroit copper at 22½c. per lb., currency.

Naval Stores and Straits Tin, at 24c. gold, are dull, except Spirits Turpentine which, with a light stock, is wanted at 53 cents.

Freight's have decidedly improved, and at the close room is scarce. The business has been mainly in cotton to Liverpool, closing at 5.16d. @ ½d. by rail, and ½d. @ ½d. by steam, and in Corn to British ports at 7½d. @ 8½d. by sail and steam to Liverpool, 9d. by steam to Glasgow, and 6d. per quarter to Cork. Very little is going to the Continent.

## COTTON.

FRIDAY, P. M., Jan. 10, 1868.

The receipts of cotton this week show a small increase, the total at all the ports reaching 100,048 bales (against 97,842 bales last week, 105,617 bales the previous week, and 87,757 bales three weeks since) making the aggregate receipts since September 1, 1867, 947,092 bales, against 819,347 bales for the same period in 1866-7, being an excess this season over last season of 127,745 bales. The details of the receipts for the past week, and the corresponding week of 1866, are as follows:

For the corresponding week of 1866-7 the shipments from all the ports amounted to 44,425 bales, showing an increase for the week this year of 2,641 bales. The total foreign exports from the United States since September 1, 1867, now reach 489,534 bales, against 327,133 bales for the same period last year, and the stocks at all the ports are at present 361,051 bales, against 551,942 bales at the same time in 1866-7. Below we give our usual table of the movement of Cotton at all the ports since Sept. 1, showing at a glance the total receipts, exports, stocks, &c.:

The market this week has not retained the buoyancy noticed in our last, but there is an improved feeling at the close. Immediately following our report it assumed a quiet aspect and developed a tendency to a reaction from the considerable advance that had taken place. This feeling caused pressure to realize, under which there was some decline. Ocean freights also advanced, and this, together with unfavorable reports from Liverpool, and a decline there to 7½d. for middling Uplands, added to the depression here, and at the close last evening prices had fallen off ¼@½c. per lb. from the highest point. To-day, with a slight advance in gold, reports of decreased receipts at Savannah and better accounts from Liv-

\* In this table, as well as in our general table of receipts, &c., we deduct from the receipts at each port for the week all received at such port from other Southern ports. For instance, each week there is a certain amount shipped from Florida to Savannah, which in estimating the total receipts must be deducted as the same shipment appears in the Florida return. We are thus particular in the statement of this fact as some of our readers fail to understand it.

† The receipts given for these ports are only the shipments from Tennessee, Kentucky, &c., not otherwise enumerated.

‡ These are the receipts at Apalachicola to Dec. 28, and at other ports of Florida to Jan. 3.

### TOBACCO.

FRIDAY, P. M., Jan. 10, 1868

The exports of crude tobacco this week are again very small, there being no exports from Baltimore, and the total from all the ports reaching only 643 hhds., 168 cases, 419 bales and 32 hhds. stems, against 1,691 hhds., 689 cases, 1,384 bales, 1 tierce for the previous seven days. Of these exports 640 hhds. were from New York, and 3 hhds. from Boston, and the ports to which they were shipped were as follows: To Great Britain, 68 hhds.; to Antwerp, 57 hhds.; to Bremen, 330 hhds.; to Gibraltar, 169 hhds., and the balance to different ports. The particulars of the week's shipments from all the ports are as follows:

The market this week has been rather more active, at steady prices. There has been a fair demand for Leaf, and the sales of the week amount to about 350 hhds. for export and 150 hhds. for consumption, at 6@18½c. for Kentucky, the latter price for a small lot of new wrappers, and including a few hhds. low grades New Virginia, at 5@7½c. Seed leaf has been more active, though the demand is still moderate. The sales include 100 cases Pennsylvania wrappers, 12½@20c.; 20 cases Connecticut wrappers, 30c.; 184 cases Pennsylvania and Ohio fillers, 3½@5c. Spanish tobacco has been very quiet, the sales being limited, 50 bales Yara at 90c. and 30 bales Havana on private terms. Manufactured tobacco is quiet.

The direction of the foreign exports for the week, from the other ports, has been as follows:

From Boston—To Surinam, 3 hhds. .... To St. Thomas, 2 boxes.... To Hayti, 30 half bales.

From Philadelphia—To Liverpool, 8,747 lbs. manufactured.

**MARYLAND AND OHIO.**—At Baltimore the trade in leaf has been considerably heavier than for any previous year since 1861. It will be seen by the table below, made up officially by the inspectors of the different warehouses, that the stock on hand Dec. 31st, 1866, was 17,015 hhds., to which adding the inspections for the year, 63,747 hhds., makes an aggregate of 80,762 hhds.; and from which deducting the shipments or deliveries for the year, 72,256 hhds., leaves as the stock in warehouses at the close of the year 8,506 hhds.—being the smallest stock known by the trade for many years. This stock is classified as follows: Of Maryland 5,615 hhds., Ohio 2,032, and other kinds 858, and is held, viz., in first hands, 1,400 hhds. Maryland, 800 Ohio, and 400 Kentucky, &c.; by speculators, 1,100 hhds. Maryland, 600 Ohio, and 300 other kinds, and in the hands of shippers and manufacturers, 3,116 hhds. Maryland, 882 Ohio, and 158 Kentucky, &c.

### BREADSTUFFS.

FRIDAY, JAN. 10, 1868, P. M.

The market throughout the past week has been dull, and prices towards the close were drooping.

The receipts of flour have been liberal from the West, with part of a cargo from California. There was some continuation of the speculative movement of last week, but it subsided on Tuesday, and a portion of the advance has since been lost. The wants of the trade appear to be unusually small, and the supplies are rather in excess—certainly equal to the regular demand, and the stock does not diminish. The dull accounts from Europe to-day increased the depression.

Wheat has also receded five cents from the highest point. Shippers were not able to do much on the advance in Liverpool, owing to the extreme views of holders; and latterly an advance of 2d in freights has interfered. The liberal supply of Western flour depresses prices below the relative value of wheat; consequently our local millers are doing very little, and they buy wheat much less liberally than last winter. At the close No. 2 Spring is nominal at \$2 38@2 40, and white California \$3@3 10.

Corn has continued to arrive freely by rail—nearly equal in quantity to the wants of the markets. Shippers have been steady buyers in the face of a decline in Liverpool, but steadily advancing ocean freights have forced down prices, and the close is at \$1 34@1 35 for new Western mixed afloat, and \$1 37 for old in store.

Oats have been subject to a great speculative movement. Nearly a million bushels changed hands, and the price was forced up to 87½¢. for Western, in store, since which there has been an irregular decline, selling to-day at 85¢. The receipts are very light, but the stock is ample, and the regular trade unusually slow. Rye has become very quiet. The small demand is nearly supplied by the parcels arriving by rail.

Barley has been quiet, but being in very light stock, and the receipts limited to lots of a few hundred bushels daily, prices are well supported. Barley malt has been in more demand.

### GROCERIES.

FRIDAY EVENING, JAN. 10, 1868.

There is rather more doing as the New Year opens, and there appears more disposition to take larger supplies. Most people believe that the lowest scale of prices has been reached, and although trade is cautious, there is more confidence than has been shown for many months. Stocks are generally smaller than at this time last year (except of Rio coffee), and are held with firmness. The turn higher for gold has caused some hesitation, but where settlements are for 60 days or four months it is believed that there will be opportunities to settle at lower rates.

Included in the imports of the week are a part cargo of Japan teas and of Java coffee. At Boston also a cargo of Java has arrived; the receipts of sugar and molasses are below an average.

The total imports at this port for the week and since Jan. 1 have been as follows. Full details of the several items are given below, under the respective heads):

### TEA.

There is more activity in Tea with the opening of the year, and a very steady confident feeling prevails. The sales are very fair for the times, and amount to 4,278 half-chests Greens, 3,270 half-chests Japan and 1,000 do Oologs.

The imports of the week have embraced 381,241 lbs. of Japan tea per Yokohama, and 238 packages by steamer from Liverpool.

The following table shows the shipments of Tea from China and Japan to the United States from June 1, 1867, to Nov. 1, the date of latest advices by mail; and importations into the United States, Jan. 1 in 1866 and 1867:

The above table includes all shipments to the United States, except 12,869 packages to San Francisco. Of indirect importation 238 pkgs. have been received.

#### COFFEE.

There is perhaps rather less doing in Rio Coffee than was expected, and prices for all grades are rather easier, nevertheless there is a fair trade to report. The sales amount to 7,849 bags Rio, and 1,400 bags Maracaibo and 236 Savanilla. St. Domingo is very quiet, the stock being very light.

The imports of the week have been 9,300 bags of Rio, 5,300 per "Stephanie" and 4,000 per "Traveller;" 17,248 bags of Java; 6,648 bags of Maracaibo, and 539 of sundries. At Boston a cargo of Java has also come to hand including 16,656 bags. These cargoes will replenish the stock of Java which had become entirely exhausted in first hands.

The stock of Rio coffee, Jan. 7, and the imports from Jan. 1 to date in 1868 and 1867 were as follows:

#### SUGAR.

There is only a moderate demand for raw sugar, but the stock is small and prices are fully sustained. The sales are 1,100 hhds Cuba and Porto Rico, and 5,849 boxes Havana refined is in steady request without change in prices.

The imports of the week have been at all the ports 7,710 boxes, against 8,779—and 540 hhds against 2,641 last week. 850 bags of Java, and 3,200 of Brazil have also come to hand. The details are as follows:

HAVANA, January 4—SUGAR (CLAYED).—We have no new feature to report since our last with regard to this staple, as nothing has since been done except one sale on Monday of 500 boxes new crop at 7½ rs. for No. 10 and 8 rs. No. 12, and another to day of 180 boxes old crop at 7½ rs. No. 11 | 14, and 6½ rs. Nos. 8 | 8½. The stock continuing to increase to a fair extent, business will probably be fairly resumed next week after the holidays are over. In the commencement of the week a contract for 4,000 c has been reported closed in Cardenas at 6½ rs. for No. 12, with cash advance.

The market closes dull at 7½@8 rs. per arroba for No. 12. The total exports from Havana and Matanzas, from 1st of January to 31st December, compare thus:

#### MOLASSES.

There is a light, moderate demand for both foreign and New Orleans molasses, and prices are steady. The sales for the week amount to

2,010 hhds. Cuba, and 1,100 bbls. New Orleans, the latter chiefly at auction.

The imports at all the ports for the week amount to 1,310 hhds. of foreign, against 2,867, and 2,748 bbls. New Orleans against 1,201 last week. The details are as follows:

HAVANA, Jan. 4.—In the absence of transactions prices here are nominal; but at the outports the quotations are lower—say, 5½@5¾ rs. per keg for clayed and 6½@6¾ rs. for Muscovado, in Mantanzas, where the demand would be active were it not the impossibility of obtaining lots for immediate shipment, most of the receipts comprising so far pre-engaged parcels. Last Saturday the following engagement was reported: From Cardenas 1,000 hhds. clayed, at 5½ rs, to be delivered this month.

#### SPICES.

We have but few details of business in Spices. The trade is chiefly for small lots for immediate consumption. Prices are steady.

#### FRUITS.

There is nothing more doing in foreign dried fruits, and the higher gold has caused more firmness in currency prices. Prices are other wise unchanged. Domestic dried are very quiet.

We annex ruling quotations of goods in first hands:

#### Tea.

## THE DRY GOODS TRADE.

FRIDAY, P. M., January 10, 1868.

The transactions in the dry goods market have been on a limited scale during the past week, and restricted mainly to filling orders to replenish stocks. This, however, proves conclusively that dealers have purchased very sparingly during the last season, and to this action we attribute the more hopeful feeling that now generally prevails throughout the trade. A heavy failure in Cincinnati produced an unfavorable

impression, and caused some anxiety about credits that fall due during this and next month; but advices recently received show that business was fairly active during the holidays, and that collections are coming in more promptly, which will enable the country merchants to meet their obligations as they become due. This, of course, does not refer to the South, where business for some time past has been totally prostrated.

While on this subject we cannot but pay a most deserved tribute to the jobbers in this and the adjacent cities, for the prudence and acumen with which they have conducted their operations during the trying times we have just passed through. Had they not restricted their purchases to the extent they have done, and shown a careful shrewdness in the credits granted, trade would now have been completely demoralized. It is well known that the manufacturers paid but little heed to the warning symptoms of the past, and instead of curtailing production they tried to stimulate a fictitious demand through important concessions, which, had they been accepted, must in the end have had the most disastrous effects. As it is stocks are generally light, and the spring season will probably show a fairly active trade, which would probably be more brilliant were it not for the Presidential canvass which invariably has a depressing effect on business.

The exports of dry goods for the week ending Dec. 31, and since January 1, 1867, and the total for the same time in 1866 and 1860 are shown in the following table:

DENIMS of the best make are selling moderately, but the demand is expected to revive in a few days time. Amoskeag 27, Haymaker 28 inch 16, do brown 16, York 28 inch 25, Boston Manufacturing Co. 29 inch 13, Union 16, Monitor 16, Manchester Co. 17, Columbian XXX 28, do blue 27, Arlington 17, Otis AXA 26, do BB 24, Mount Vernon 24, Pawnee 12, Northfield 12, Webster 10.

BROWN DRILLS have been reduced in price, which will probably stimulate sales. Winthrop 13, Amoskeag 15, Laconia 16, Pepperell 16, do fine jean 16, Stark A 15, Boot 15, Massabesic 14, Massachusettis G 12, Woodward duck bag 21, National bags 31, Stark A do 37, Liberty do 31.

PAINT CLOTHS are firmer in price. Operations will be more animated when the rates asked for prints become more fairly settled.

PRINTS have been more active since the recent reduction in rates of some standard styles. There are but few operations to report as yet in first hands, but within ten days some of the spring patterns will be on the market, and prices will probably show more steadiness. American 11, Amoskeag dark 11, do purple 12, do shirting 11, do palm leaf 12, Merrimac D 12, do purple 12, do W dark 13, do purple 13, do pink 13, Sprague's 11, do purple 13, do shirting 13, do pink 13, do turkey red 12, do blue check 12, do solid 11, do indigo blue 12, do Swiss ruby 12, London Mourning 11, Simpson Mourning 11, Amoskeag Mourning 10, Dunnell's 12, Allen pink 12, Richmond 11, Arnolds 11, Gloucester 11, Wamsutta 8, Pacific 12, Freeman 11, Cochecho 13, Lowell 12, Hamilton Purple 12, Victory 9, Empire State 7, Lancaster 12, Atlantic 7.

GINGHAMS are fairly active. Lancaster 16, Hartford 12, Hampden 12, Caledonia 12, Glasgow 15, Clyde 11, Berkshire 14, German 14, Roanoke 11, Hadley 12, Manchester 15 cents.

CANTON FLANNELS are in steady demand for the best makes; others are neglected. Ellerton N brown 23, do O do 26, do P do 24, do S do 21, do T do 19, Laconia do 20, Slaterville do 15, Hamilton do 20, Naumkeag do 18, Tremonts 17, Ellerton N Blea 29, do O do 25, do P do 24, Stillwater do 18, Granite State do 20, Naumkeag do 21.

CORSET JEANS are in limited request. Androscoggin 11, Bates colored 10, do bleached 10, Naumkeag 13, Pepperell 14, Naumkeag satteen 17, Laconia 13, Amoskeag 13, Newmarket 12, Indian Orchard 11, Ward 16.

CAMBRICS AND SILESIAES show no change since our last report. Washington glazed cambrics 9, Victory H 8, do A 9, Superior 7, Pequot 9, Waverly 11, Wauregan 9, and S. S. & Sons paper cambrics 32 inch at 11, do high colors 12, White Rock 11, Masonville 11, Warren 12, and Lonsdale Silesias 28 inch at 20, Victory J 12, Indian Orchard 16, Ward 16.

MUSLIN DELAINES have been in some demand to replenish stocks, and in the superior grades prices are firm, as they are sold up pretty close. Lowell 19, Hamilton Co. 17, Manchester 19, Pacific dark 19, Pekin 28, Armours dark 21, Pacific Merinos A 30, Mourning 19, Spragues 16, Skirtings 30, Alpacas 28.

FLANNELS AND LINSEYS.—Flannels are in moderate demand. For Linseys the trade is over. Belknap shirting flannels sells at 40, Washington do 50, Rob Roy rolled 6-4 39, Rob Roy 3-4 35, Cochecho black and white check 45, Franklin shirting 40, Caledonia shirting 32, Pequa, double fold 36-40, Bay State Opera 47, Gilbert's do 57, Franklin do 52, Washington do 43, and Park Linseys No. 35 at 20, do 45 22, do 50 25, do 60 27, do 65 32, do 75 35, Wamsutta No. 40 22, do 50 25, do 70 35, White Rock 22, Black Rock 20, James Nolan 23.

In woollens there is as yet but little doing; the clothiers are limiting their purchases to the lowest point, and foreign goods are quite inactive.

TOLEDO, PEORIA AND WARSAW RAILROAD.—The western extension of the Toledo, Peoria and Warsaw Railroad has been completed from Warsaw, on the Mississippi river, to Bushnell, on the Chicago, Burlington and Quincy Railroad. It was opened for travel on the 1st inst. The intervening gap between Peoria and Bushnell is being rapidly graded, and will be finished before the expiration of another year.

JACKSON, LANSING AND SAGINAW RAILROAD.—The extension of this road from Owosso to Wenona was opened on the 17th ult. The road commences at Jackson on the Michigan Central Railroad, 76 miles from Detroit and 108 miles from Chicago, and runs north-east 115 miles through Lansing and Owosso, on the Milwaukee and Detroit Railroad, and Saginaw City to Wenona, opposite Bay City on Saginaw Bay.

LAKE ERIE AND LOUISVILLE RAILROAD.—It has been decided, at a public meeting of parties interested, to complete the Lake Erie and Louisville Railroad from Findlay to Lima. Immediate steps are to be taken to construct the extension.

FLINT AND PERE MARQUETTE RAILROAD.—The formal opening of the Flint and Pere Marquette Railroad (Michigan) to Midland City was celebrated on the 30th ult.

CAMDEN AND AMBOY RAILROAD.—This company are engaged in building a new line of railroad from Camden, the southern terminus of their route to Hightstown.

LEBANON SPRING RAILROAD.—This extension of the Harlem Railroad is progressing rapidly. Twenty-nine of the fifty-six miles are ready for the track, and several miles are nearly completed. Iron is being distributed along the line, and the laying of the track has been commenced. It is confidently expected that the "Green Cars" of the Harlem road will run through to Montreal before the 1st of next July.

## 525 MILES

OF THE

## UNION PACIFIC RAILROAD, Mutual Insurance Co.,

Running West from Omaha Across the Continent

ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent Bonds at the rate of from \$16,000 to \$48,000 per mile, for which it takes a SECOND LIEN as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty-mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have already been paid in upon the work already done.

## EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a GOVERNMENT WORK, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

## FIRST MORTGAGE BONDS

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

## SIX PER CENT. IN GOLD,

or over NINE PER CENT. upon the investment and have thirty years to run before maturity. Subscriptions will be received in New York at the Company's Office, No. 20 Nassau Street, and by

CONTINENTAL NATIONAL BANK, No. 7 Nassau Street.

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at Company's Offices or of its advertised Agents or will be sent free on application.
